

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Brad Spencer, Registration No. 57076, on 07/15/2009.
3. The specification had been amended as the following:
  - a. page 10, paragraph [0026], line 3, replace **"may be"** with **"being"**;
  - b. page 10, paragraph [0026], line 4, replace **"may provide"** with **"providing"**.
4. The following is an examiner's statement of reasons for allowance:

The prior arts of record either taken individually or in combination fail to teach or suggest the claimed invention as details as claimed in claims 1, 8, 12, and 15. For example, the prior arts of record did not teach or suggest "dynamic base object" as defined in the specification paragraph [0026] that perform the functions of claims 1, 8, 12, and 15, and "the user registration information is pre-registered user data" as claimed in claims 1, 8, 12, and 15. Therefore, the prior arts of record fail to teach or suggest the

claimed invention as a whole as claimed in the claims. Thus, claims 1, 8, 12, and 15 are allowed over the prior arts of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer N. To whose telephone number is (571) 272-7212. The examiner can normally be reached on M-T 7AM- 4:30 PM, F 7AM- 3:30 PM.
7. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng-Ai An can be reached on (571) 272-3756. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
8. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should
